

Frank Ball

Frank currently serves as the Senior Director, Operations, for Amentum's Combatant Command (CCMD) Test, Evaluation, Integration and Analysis Business Area. Frank joined the company (then URS) in 2012 and has over 30 years of military operations experience. He is responsible for providing his customers with acquisition, engineering and systems integration services to improve mission execution by enhancing systems performance, resilience and data analytics. His team's strategic focus is on resilient, reliable services for seamless integration of technology for customers' most critical operations.

A graduate of the US Naval Academy, Frank served 24 years in the United States Marine Corps, retiring as a lieutenant colonel. He is highly experienced in multiple Marine Air-Ground Task Force (MAGTF) disciplines, specifically Electronic Warfare, Aviation, and Command and Control, with tactical and operational experience garnered through numerous contingency and operational deployments. Based on his extensive Joint and MAGTF experiences, he is a recognized expert in EW and Command and Control operations technologies, strategies, and policy.
